Freelance work

The period of work	from 01/2004 to 02/2005

I started my career as a system administrator, but soon realized that I like to develop websites. During this period I worked as a freelancer and develop websites for customers, which I found myself.

Open-source projects

- Lessmore
  The modern library of LESS mixins that implements cross-browser support for the CSS3 features and more
- Autoconf
  Automatic generator of configs for web server nginx or lighttpd

Professional Skills

Here's a list of front-end technologies that I used in my work.

- HTML (XHTML)
- CSS
- JavaScript (Ajax)
- jQuery, jQuery UI
- JS Libraries: Underscore, ReactJS
- Module loaders: RequireJS (AMD), Webpack, Browserify
- Bootstrap
- Development methodologies: BEM
- CSS Pre-Processors: Less, Sass
- PostCSS Plugins
- CSS Grids
- Normalize.css, CSS Resets
- Modernizr

- MVC Frameworks: AngularJS, Backbone
- TypeScript
- ECMAScript 6: Babel
- JavaScript testing frameworks: Mocha, QUnit
- JavaScript code quality tools: JSLint, JSHint
- HTML 5 APIs: Canvas, Geolocation
- Data Formats: JSON (JSONP), XML
- SVG, Icon Fonts
- Web Components, Shadow DOM
- Technical documentation: Markdown, JSDoc, DocBook
- Version Control: Git, GitHub, Subversion
- Package Managers: npm, Bower
- Automation and Task Runners: Yeoman, Grunt, Gulp, Make
- Template Engines: Jade, Mustache, Swig, Closure Templates, FreeMarker, Velocity, XSLT
- Back-end technologies: Node.js
- Databases: MySQL, MongoDB
- Web-servers: Apache, nginx, lighttpd
- Regular Expressions
- Task Management: JIRA Software, Agile
- Browser Debugging Tools: Chrome Dev Tools, Firebug
- Image Editing Software: Photoshop, Illustrator, Gimp, Inkscape

My favorite editors: WebStorm and Sublime Text.

About me

I love my job and always try to learn something new. My favorite technologies are HTML, CSS and JavaScript. But I'm also interested in all technologies and tools associated with web development.

Languages

- Russian - native
- English - upper intermediate
- Italian - beginner

Personal qualities

I think that my main quality is **perfectionism**. It helps me to do my job with maximum quality. At the same time, this quality sometimes prevents me to do the job quickly.

Besides work I love my family, good movies, computer games and online poker.

If you want to contact me, write me by email or chat in Skype.
